Today in the school, there are about 900 students. We have a headmaster, Mr Aupetit, and a deputy headmaster, Mr Sinimale. In the school, there are two year heads. They are the mediators between teachers and students or between teachers and parents. We also have a nurse, a social worker, a psychologist, a librarian and of course teachers who are about 90. At school, there are many eco delegates. It is a group of volunteer students who make actions to protect the environment and who participate to the sustainable development projects.

VALLADOLID

Our School IES del Pinar

We are a group of students of IES Pinar de la Rubia, a school located in the south of Valladolid, a city of Spain. We go to class from Monday to Friday six hours a day and during the weekdays we never go out, but we practise sports, and we have time to hang out with friends on the weekends. Most of us live in the city outskirts so we usually hang out in the city centre, of course. It is the most beautiful and popular place in the city, and it has lots of facilities to enjoy ourselves, although we usually meet at shopping centres. This time of year, Valladolid is cold, in fact there is a saying which says, "nine months of winter, three months of hell".
